intro

Humans do different things out of love. We prepare a new gift catalogue every six months.

WE LOVE GIFTS

Ithough love is blind, we keep a close eye on the new products introduced into our offer. We try to ensure every collection is a mix of choices made by heart and based on mind's suggestions. We believe the catalogue you have in your hands will help you choose a perfect gift for a person you want to give it to.

Gifts have a long tradition of many thousand years. We, people, are social beings who like company and often use smaller or greater gifts to express their feelings. No matter whether this is an expression of true love, appreciation of a well-done job or simply showing gratitude that somebody is our friend, gifts are deeply engrained in our DNA.

The old saying reads "It is better to give than to receive", and its truth is confirmed by socio-psychological studies and theories. Also for business gifts what works is not only the popular "reciprocity rule" based on the need to return a favour, but also an ordinary, human altruism, meaning a pleasure of giving gifts.

Please yourself and make the other person smile.

MARKING

With the appropriate marking, a gadget is no longer only a form of advertising. Depending on the intentions, it will be a form of your expression, way of winning a customer, expression of recognition or simply means to be remembered.

THE INFOGRAPHIC BELOW SHOWS WHAT KIND OF MARKING EFFECTS CAN BE EXPECTED DEPENDING ON WHICH MARKING TECHNIQUE WE USE.

All markings (Your Logo, www.youraddress.com) presented on the products in this catalogue are shown only for the displaying marking possibilities and informational purpose.

ORIGINAL LOGO

ACHROMATIC LOGO

(without tonal gradiations)

Logo is unicoloured and obtained colour depends on marked material. In those techniques we don't determine colour of marking.

USED IN FOLLOWING TECHNIQUES:

engraving, debossing

COLOUR

(without tonal gradiations)

Logo can be made in 1 to 4 separate colours (standard) or more if required. Number of colours depends on product specification and chosen marking technique. In our work we use PANTONE system.

USED IN FOLLOWING TECHNIQUES:

pad printing, screen printing, screen printing heat transfer, embroidery

COLOUR LOGO

(with tonal gradiations)

Marking is fully coloured, number of colours is unlimited. Colours are determined by CMYK system.

STOSOWANE PRZY TECHNIKACH:

direct UV printing, sublimation, solvent flex printing, doming

BLUE COLLECTION / SPRING SUMMER 2020

4 20130 / **Drawstring bag KORIK** / page 272

The KORIK drawstring bag has a really roomy main compartment. It can be closed with drawstrings and is made of cotton and cork. It is perfect for shopping.

5 20234/ Paper backpack CHARTI / page 283

The CHARTI backpack made of kraft paper impresses with its simple form and natural design.

6 20227 / Recycling bags RECIDO / page 286

The RECIDO waste segregation bags are very durable and capacious. The use of clear graphics and three colours consistent with the recommendations of the Ministry of Environment makes waste segregation easy.

THINK GREEN

Closer to nature

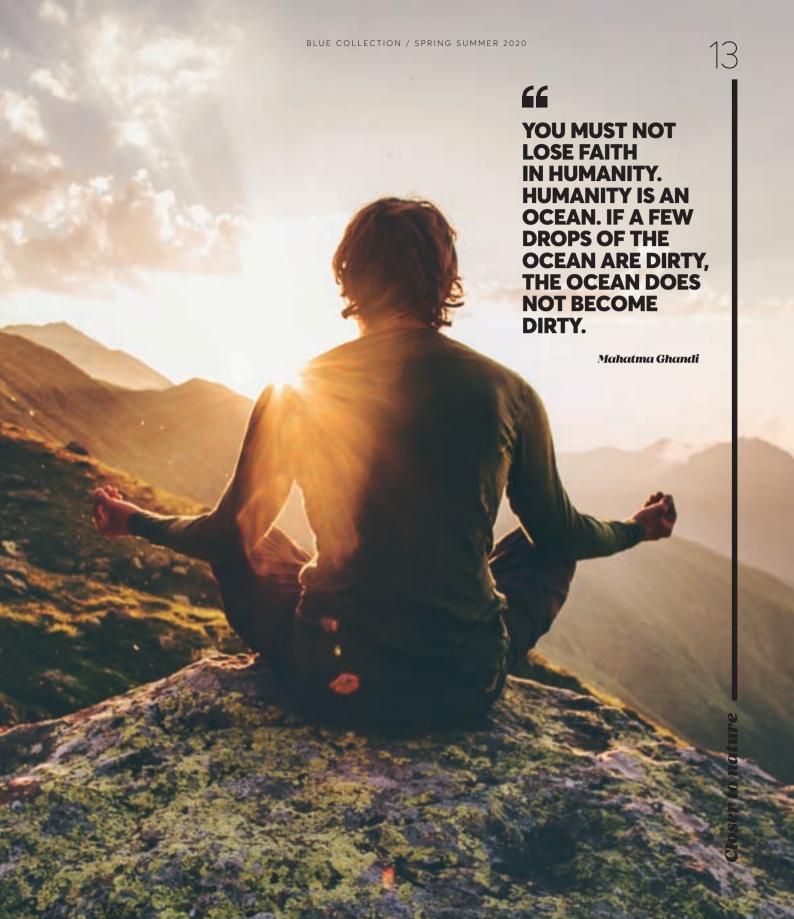

LIFE WITHOUT PLASTIC COULD BE EASY!

9 16009 / Glass mug SKLO 380 ml / page 203

The SKLO mug is made of high-quality borosilicate glass resistant to heat. A cork strap makes the mug easy to hold, prevents slipping off from hand and is also a decoration.

The eco-friendly ball pen made of rolled paper with a paper cap. Available in a wide range of colours.

19649 / **Ball pen FOLL**/ page 82

FOLL pen was made for everyone who support the idea of using natural resources. The barrel of this pen is made of natural barmboo and the clip and tips are made of 50% natural straw.

The eco-friendly ball pen made of cardboard, recycled plastic and wood, blue refill.

19660 / **Bamboo ball pen LASS** / page 81

LASS is a simple ball pen with the barrel made of 100% natural bamboo. The refill is protected from drying with wax.

The A6 GREN noteblock holds 100 A6 sheets made of ecofriendly, certified paper. The notebook presents a natural, minimalistic design.

17831 / **Notebook CORA A5** / page 147

CORA is an A5 notebook. It has a nice, stiff cover made of cork and 70 smooth ecru sheets. Closed with an elastic band.

Closer to nature

OLLECTION / SPRING SUMMER 2020

DARO is a standard umbrella model with a bamboo handle. It is made of recycled material which is its great advantage, helping to reduce plastic production. The umbrella is semi-automatic, meaning it can be opened automatically.

The AIDEN clock is distinguished by its unique style. It is made of genuine stone. It fits perfectly into modern, minimalist interiors and will decorate walls of even the most demanding aesthetes.

03090 / Wall clock NATURAL / page 36

If you like ecological materials, NATURAL wall clock, made of MDF board, is a product for you!

LIFE WITHOUT PLASTIC COULD BE EASY!

The ANIMAL domino is an alternative to the standard domino version made for the youngest players. Colourful print on the tiles make the game even more entertaining. Domino tiles are made entirely of wood.

The standard yo-yo made of wood with raw, not varnished surface.

20088 / **Puzzle game CUBE** / page 260

A small logic puzzle in a cotton bag. The puzzle is made of wood. The logo can be printed on the bag using screen printing.

Power bank

Reliable power source Anytime, anywhere

Nearly 75% of global population uses mobile devices

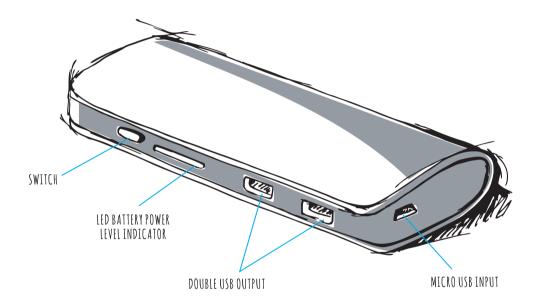

1 in 3 people complains about short-lasting batteries

Every new generation of mobile devices requires more energy

Important to know!

It is worth remembering that during charging, inevitable energy losses occur, which may reduce the real power bank efficiency to as much as 75%. This is a completely natural phenomenon and should be taken into account when selecting the capacity of the power bank.

mAh miliampere-hour

mAh is a miliampere-hour, the unit for batteries capacity. The value in mAh means how many energy can be storaged. Power banks with higher mAh capacity can recharge more devices.

USB ports the more, the better

Power bank may have more than one USB output, which allows you to charge multiple devices simultaneously. Each output may have different amperage dedicated for different mobile devices.

PAY ATTENTION!

Device's capacity

Shape and dimensions

Amperage – time of recharging

Power banks come with 12 months warranty and CE certificate.

AVAILABLE POWER BANKS:

Air Humidifier

In our opinion...

Dry air has a negative impact on our health, especially in autumn and winter. To avoid this, we recommend the UMI-DO humidifier, which is extremely simple and convenient. In addition to the basic function of generating haze, it also has an eye-catching, colourful back light.

infoGRAPHIC

Induction

Charge the phone without connecting it to the charger

Is inductive charging safe for people?

According to information provided by the World Health Organisation, to date scientific evidence does not support the link between symptoms (such as headaches, anxiety and nausea) and exposure to electromagnetic fields. Their occurrence can often be caused by noise or by concerns about the presence of new technologies.

The level of radiation emitted by wireless chargers is much lower than emitted by other household appliances such as microwaves, mobile phones, televisions and vacuum cleaners.

Durability

You don't have to connect or disconnect your devices every time, so you can avoid damaging the USB connector.

Convenience

Place the phone on a dedicated charger (induction board) and it will start charging. You can reach for it at any time and leave.

Aesthetics

Original designs make your charger a decorative element as well.

IT IS WORTH REMEMBERING!

Do not place the charger in close proximity to strong electromagnetic fields such as other induction chargers. The recommended distance should be at least 3 cm.

USB Type C

Transfer your files in an easier and quicker way, charge your smarfon and notebook.

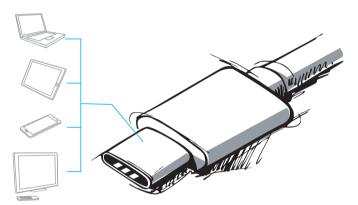

7x longer lasting than a conventional A-type USB plug

one universal connector to be used on a wide range of devices

easy-to-use plug

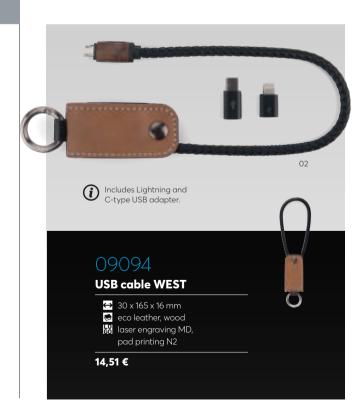

A new type USB connector shape

USB Type C (also called "USB C") connector is user friendly. There's no up or down orientation so it works regardless of which way you plug it in. Also both ends of the cable feature the same kind of connector. Over the last couple of years, USB Type C has become more available and popular. It's on track to become the industry standard for USB connections in the future, because of several innovations and technological enhancements that make it an exciting advancement in USB technology.

Universality

USB type C can be used not only as AC and USB power connector, but also as a headset and HDMI connector.

It has micro USB, iPhone (Lightning) and USB Type C terminals.

" In our opinion...

Sometimes it seems that everything has already been invented on the subject of pens and that few things can surprise you in such a simple promotional gift. The SOLID MAT pen clearly contradicts these claims. Its unique surface is covered with a pleasant to the touch rubber surface and an engraving effect – the mirrored glossy logo catches the eye and makes the pen take on even more charm.

Because choosing a pen does not have to be difficult.

Do you have a problem deciding which pen is best for your business? We are here to help you.

To make it easier for you to make your choice, we have introduced modern and stylish templates, which perfectly emphasize the advantages of our 10 most popular pens. Now you can test them and see for yourself how they write and look. In addition, each template contains a notebook made of fashionable and ecological stone paper, which thanks to its properties makes writing a pure pleasure.

The most popular models of metal ball pens!

Touch pen

Friend of every touch screen.

No scratches

Clean screen

Precision

Touch Pen is a useful gadget for every mobile device owner. It makes using touch screens possible anywhere, anytime and regardless of the weather.

p. 94

p. 95

p. 96

p. 97

p. 98

p. 103

p. 122

Use in winter, while wearing gloves or in bad weather conditions

How does the touch screen work?

Most of the mobile devices are equipped with a capacitive touch screen. By touching the screen, a local electric capacity in the given point is changing – and this action is read by the device. This type of touch screen won't respond to cold hands, gloves or plastic stylus.

p. 127

Pens are not only useful for writing. Fisher Space Pen Company boasts that in 1969 the pen helped Apollo 11 succeed in its mission. During a capsule crash on the way back from the moon, astronauts used a pen instead of a broken button to return to Earth. "Buzz" Aldrin, one of the members of the Apollo crew, still holds this pen as a priceless treasure that saved his life.

Notebook

Always fashionable.

3 reasons why it's good to have a paper notebook

- note your thoughts and observations without distracting yourself with electronic devices
- handwritten notes give better results and allow better remembering of information
- a paper notebook will not run out of battery power or break down when you drop it on the ground

In Chinese culture, the custom of giving business cards is an important moment in establishing business relations. The business card is handed over with both hands and presented to the Chinese partner usually at the beginning of the conversation. When accepting one, you should also do it with both hands. Business cards taken from a business card case will also be much more appreciated than those taken from the back pocket of your trousers.

Did you know...

The great benefits of kitchen accessories made of bamboo fibre are their durability and 100% natural properties. They are three times more durable than accessories made of wood. Additionally, the bamboo is resistant to high temperatures. You can be rest assured you won't get burned while serving dishes or drinking hot beverages. No glue is used during their production process therefore they don't interact with food and are safe for children.

In our opinion...

A multifunctional cooling towel is a proposition for the active people. It will work well not only in the gym or fitness classes but also outdoors. It will cool the body or hair and protect against the sun at the same time.

How it works?

Soak clean towel with water.

Wring out the towel and feel it getting cooler and cooler.

3,15 €

Did you know...

The production process of a single plastic bag lasts about 1 second, we use them for approx. 25 minutes, and they decompose for almost 400 years. Maybe it is worth to think about solutions which are more friendly to the environment? By choosing reusable bags not only do you care for the environment but also the image of your brand.

GREENS bags

16523

Mesh bags set GREENS

185 x 250 mm, 235 x 290 mm

4,10 €

In our opinion...

In order to take care of the environment it is best to start by making changes in everyday life. Take a woven, reusable bag for shopping instead of a plastic bag. When not used it takes up very little space, and after packing your shopping, it turns out to be very capacious.

MADE OF PAPER

It is not the best idea to wash paper. Surely, you know that. But what you probably do not know is that our paper bags are not afraid of getting wet. With synthetic latex impregnation, the cellulose that is used to manufacture them does not lose its properties even after laundering. The material which our bags and backpacks are sewn of is often referred to as leather for vegans because its production does not require the use of any ingredients of animal origin.

Did you know...

A reflective vest can save your life. On average, the driver is only able to see a pedestrian on the road from a distance of about 20-30 metres. Thus, the chance of avoiding an accident is almost zero. The visibility of a person wearing a reflective vest is increased up to 7 times! Put on your vest, give yourself a chance.
