NATURAL, SUSTAINABLE AND ECO-FRIENDLY PROMOTIONAL GIFTS

GO GREEN

The GO GREEN collection helps you achieve your promotional goals in a more sustainable way. Our products indicated with "GO GREEN" icon provide greener alternatives to traditional items. They are fully or partially made of natural, sustainable or recycled materials or provide a more durable substitute to a normally disposable everyday item.

Find a highlight of our GO GREEN materials below, and even more throughout the catalogue.

WOOD

BAMBOO

RPET

CORK

RECYCLED PAPER

ORGANIC COTTON

JUTE

HEMP

RECYCLED ABS

CORN PLA

RECYCLED FABRICS

Recycled polyester
Recycled nylon

NATURAL FIBRE PLASTICS

Bamboo fibre plastics
Wheat straw plastics

COMPLIANCE AND QUALITY COMMITMENT

Our catalogue presents a wide range of products that were sourced and manufactured with special care to ensure the quality, safety, and compliance with European requirements, as well as with various product-specific standards. Declaration of Conformity documents and laboratory test reports are available as an assurance of product compliance with applicable European regulations.

The displayed icons are graphically designed therefore may differ from legal icons.
No rights may be derived from this information.

be Creative

BE CREATIVE is a special product collection that lets you create perfectly customized and truly unique promotional gifts. These items give you the freedom to present your brand with bold, full-colour designs that can be easily integrated into your corporate image. Some of the BE CREATIVE items even give you the opportunity to mix and match the colour and material of the product parts or design your custom shape to make them more outstanding.

Find inspiration among our illustrations – we use various natural and geometrical patterns as well as animals in vivid colours to illustrate the high level of customisation possibilities.

This showcase only represents a small selection of the BE CREATIVE products; you can find many more throughout the following chapters of the catalogue.

UNIQUE

The BE CREATIVE Collection lets you create unique and memorable messages and images by offering a high degree of customisation.

INNOVATIVE

The BE CREATIVE Collection consists of special products, developed and hand-picked with creativity and special customisation in mind. Imprints are almost entirely made with digital technologies, ensuring colourful and high-resolution prints.

ACCESSIBLE

BE CREATIVE products are custom-made in our in-house production facilities or assembled from our stock of parts. They are manufactured, assembled or printed in Europe. This ensures short delivery time and low minimum order quantity, even for entirely custom-made products.

CREAPACK

BE CREATIVE

Made in EU.

Available from 50 pcs.

Custom CreaBox gift boxes and CreaSleeve paper rings are available for products indicated with the CreaPack icon.

Your printed promotional product makes a more memorable impression in a personalized packaging. That's why besides delivering the perfect promotional gifts with personalised print, we also provide you a full service with matching custom gift boxes and paper sleeves. CreaBox and CreaSleeve as the members of the highly customisable Be Creative Collection can be full-colour printed with your unique design to match your brand and message perfectly.

TAKE YOUR GIFT PACKAGING TO THE NEXT LEVEL AND CREATE YOUR OWN BRANDED GIFT BOXES OR PAPER SLEEVES.

1. Choose your product!

2. Personalize it with your logo.

3. Design your custom CreaBox or CreaSleeve.

4. Have your product delivered in a custom packing.

CREABOX

Accompany your printed promotional gift with a custom full-colour printed box. Our well-known CreaBox custom gift box programme gives an exclusive gifting experience and a professional look for any present.

We offer two types of digital printed boxes for selected items:
- Corrugated cardboard boxes for bulky and fragile items.
- Single layer cardboard boxes for smaller products.

CREASLEEVE

The new CreaSleeve custom paper sleeve programme lets you create your own full-colour paper ring for most of our products in our collection, offering a stylish yet economical packing alternative to our existing CreaBox custom gift boxes.

We offer two types of digital printed paper sleeves for selected items:
- White paperboard for vivid colours.
- Kraft paper for a natural look.

For more information on production time and prices, please, contact us!

STANDALONE CREABOX GIFT BOXES

MADE IN EU · be Creative · MOQ 50 PCS · CREA PACK

We offer standalone CreaBox gift boxes for your general packing needs besides our product specific CreaPack options. Our below listed boxes can be ordered independently so that you can combine promotional and traditional gifts and deliver them in style.

Indicated prices include full colour printing of the boxes. Minimum order quantity is 50 pcs. Delivered flat-packed.

10 ML — Millilitre capacity.

BLUETOOTH — Bluetooth connection.

4GB — Flash memory capacity in gigabyte.

10 CM — The length of a ruler or tape measure in centimetre.

HAND-FREE CALLS — Hands-free call function.

1200 mAh — Charger output in mAh.

WINDPROOF — Windproof umbrellas.

FM RADIO — Built-in FM radio.

Pens with a removable cap.

A4 — Paper size.

MICRO SD — Micro SD card playback.

Pens with a twisting mechanic.

Notebooks with blank or lined papers.

5 W — Wireless chargers (output: wattage).

Pens with black, red or green refills.

NEW **NOVELTIES**

New products of the season.

GO GREEN **GO GREEN**

Natural, sustainable and eco-friendly promotional gifts.

RPET **RPET**

Products made of recycled PET material.

ANTI-BACTERIAL

Products made of special anti-bacterial material or have a disinfectant effect.

MOQ 10 PCS **MOQ**

Minimal order quantity of custom-made or special printing products.

MADE IN EU **MADE IN EU**

Products made in Europe. (Raw materials and spare parts may be of non-European origin.)

ASSEMBLED IN EU **ASSEMBLED IN EU**

Products assembled in Europe.

be Creative **BE CREATIVE**

BE CREATIVE products are highly customizable, allowing you to choose your unique colour, material and shape, and create your own design.

CREA PACK **CREAPACK**

Products available with custom full colour CreaPack packaging.

RFID **RFID**

RFID blocking technology.

BE CREATIVE graphics on the products of this catalogue are only exhibited for the purpose of displaying printing possibilities and are not reference for sale. Accordingly, products are merchandised blank or imprinted with the customer's graphics.

The right is reserved to deliver products that differ, in execution and in colours, from items illustrated in this catalogue. The displayed product printing parameters may differ from actual possibilities.

Products are delivered without decoration and battery, unless otherwise indicated.

Prices displayed in this catalogue are not including VAT.

LIGHT UP YOUR LOGO
Light Up Your Logo Products contain LED lights, hidden inside their housing, resulting in a special backlit-effect of your engraved logo.

SPECIAL ENGRAVING
Special Engraving Products are specially designed for a unique laser engraved appearance. Thanks to the special dual-layer coating on the product's surface, laser engraved logos appear in colour or with mirror-effect.

PRINTING
TECHNOLOGIES

Choosing the best gift - from our wide product collection - for your promotional needs is only half of the success equation. The appearance of your logo or message carries equal importance. In order to ensure the realisation of your brand image, we provide various printing technologies, ranging from traditional methods to state of the art digital technologies.

The following guide aims to give you a brief overview of our labelling techniques and to help you pick the best for your selected item.

P PAD PRINTING

Pad printing is the most popular, traditional ink-based labelling method. This technology uses a silicone pad to transfer ink onto an item with fine details and high accuracy, applicable to a wide range of materials. Pad printing allows labelling curved surfaces.

S SCREEN PRINTING

Screen printing is a traditional ink-based labelling process, for flat or flattenable products, with high durability and colour accuracy. During the screen printing process ink is directly pressed on the product's surface through a gauze, then fixed with heat treatment.

RS ROTARY SCREEN PRINTING

Rotary screen printing is a special kind of screen printing for labelling bottles. The cylindrical screen printing machine rotates the product parallel with the gauze, resulting in continuous prints throughout the surface of the product.

T TRANSFER PRINTING

Transfer printing is based on traditional screen printing, however, instead of being directly screen printed onto an item, the design is printed onto transfer paper, then applied with a heat press. Transfer printing is applicable to a wide range of products and holds several advantages over screen printing.

DT DIGITAL TRANSFER

Digital transfer printing is a modern, full-colour alternative to traditional transfer printing. The design is printed in photo quality onto transfer paper with a special digital printer, then applied to the product with a heat press. Our digital transfer technology carries no limitation in size or shape of imprints.

DTT TEXTILE DIGITAL TRANSFER

Textile digital transfer printing is a variation of digital transfer printing optimised for creating long-lasting, durable prints on clothing and accessories. To maximise imprint durability wash garments below 40 degrees Celsius.

SU SUBLIMATION PRINTING

Sublimation printing is a full-colour, digital labelling technique with photo quality. Designs are printed with special ink on a transfer paper, then heat-pressed onto the product's surface. Sublimation is only applicable to light coloured polyester and sublimation coated products.

OP INKJET OVERPRINTING

Inkjet overprinting is used to imprint flat surfaces in full-colour with a special high-speed inkjet printer. As inkjet overprinting does not utilise white inks, imprint colours may be effected by the base colour of the product. Inkjet overprinting is applicable to porous materials, such as paper, natural bamboo and wood.

UV UV LED PRINTING

UV LED printing is a full-colour, digital labelling process utilising UV-cured inks. Logos are directly printed on the product's surface in high-resolution, resulting in instant photo quality imprints.

RUV ROTARY UV LED PRINTING

Rotary UV LED printing is a digital, full-colour labelling process to create photo quality imprints directly on the surface of cylindrical and conical items, allowing a large imprint wrapping the item. Rotary UV LED imprints are coated with transparent varnish for an exquisite look and extra durability.

C CERAMIC PRINTING

Ceramic printing is used to label mugs, glasses and certain metal items using special ceramic paints fired at high temperature. The label is applied to the product similarly to transfer printing, then fired in a furnace.

WPC CERAMIC WHITE PRINITING

Ceramic white printing is a special full colour printing technology for white ceramic products, which is based on ceramic printing.

E ENGRAVING

Engraving utilises lasers to mark a product's surface. The surface of the product practically burns in the process to develop the logo. Even small logos can be printed very accurately. Engraving is applicable to metal, wooden, glass and certain plastic products.

RE RAINBOW ENGRAVING

Rainbow engraving is a special laser engraving technology, utilising different wavelength laser beams to achieve coloured imprints on metal items, without the use of inks or chemicals.

ER ROTARY ENGRAVING

Rotary engraving utilises lasers to mark the surface of cylindrical products. With the help of a special rotary device the engraved product is rotated during the printing process, allowing a large imprint wrapping the item. Rotary engraving is applicable to metal, wooden, bamboo, glass and certain ceramic products.

O EMBOSSING

Embossing is an elegant process that changes the surface of the material that has been embossed, through forming a 3D impression. This impression is achieved by pressing a specially-made die onto the product's surface.

DO EPOXY DOMING

Epoxy doming is a unique printing technology, using full-colour printed stickers covered with 2 component resin. As a result, the treated sticker will have a 3-dimensional look. Epoxy domed logos can be produced in custom shapes and are resistant to UV rays.

DG DIGITAL PRINTING

Digital printing is used to imprint paper products and paper inserts in photo quality. Paper inserts can be produced in various sizes and shapes.

VF VISION FILM PRINTING

Vision Film printing is a special printing technique for labelling sunglasses lenses. During the labelling process, a digitally printed and perforated film is applied enabling a high degree of customisation.

VS VINYL STICKER

Vinyl stickers are digitally printed full-colour, self-adhesive stickers applicable to various, otherwise hard to print, products. Vinyl sticker logos can be produced in various sizes and shapes.

BR EMBROIDERY

Embroidery is used to label textile products, resulting in durable and high-quality imprints, by an automatic embroidery machine which applies thread through needle stitches. Pantone matching is not achievable, due to limited thread colours.

FP FREE PRINTING

Price includes printing with indicated technology. Excluding setup charge.
