- BE CREATIVE is a special product collection that lets you create perfectly customized and truly unique promotional gifts. These items give you the freedom to present your brand with bold, full-colour designs that can be easily integrated into your corporate image. Some of the BE CREATIVE items even give you the opportunity to mix and match the colour and material of the product parts or design your custom shape to make them more outstanding.
- Find inspiration among our illustrations – we use various natural and geometrical patterns as well as graphics of animals in vivid colours to illustrate the high level of customisation possibilities.
- In the BE CREATIVE 2022 e-catalogue, there are various unique personalization and printing options. However, you can find even more details about your options in our webshop or by contacting your sales manager.

be Creative

UNIQUE

The BE CREATIVE Collection lets you create unique and memorable messages and images by offering a high degree of customisation.

INNOVATIVE

The BE CREATIVE Collection consists of special products, developed and hand-picked with creativity and special customisation in mind. Imprints are almost entirely made with digital technologies, ensuring colourful and high-resolution prints.

ACCESSIBLE

BE CREATIVE products are custom-made in our in-house production facilities or assembled from our stock of parts. They are manufactured, assembled or printed in Europe. This ensures short delivery time and low minimum order quantity, even for entirely custom-made products.

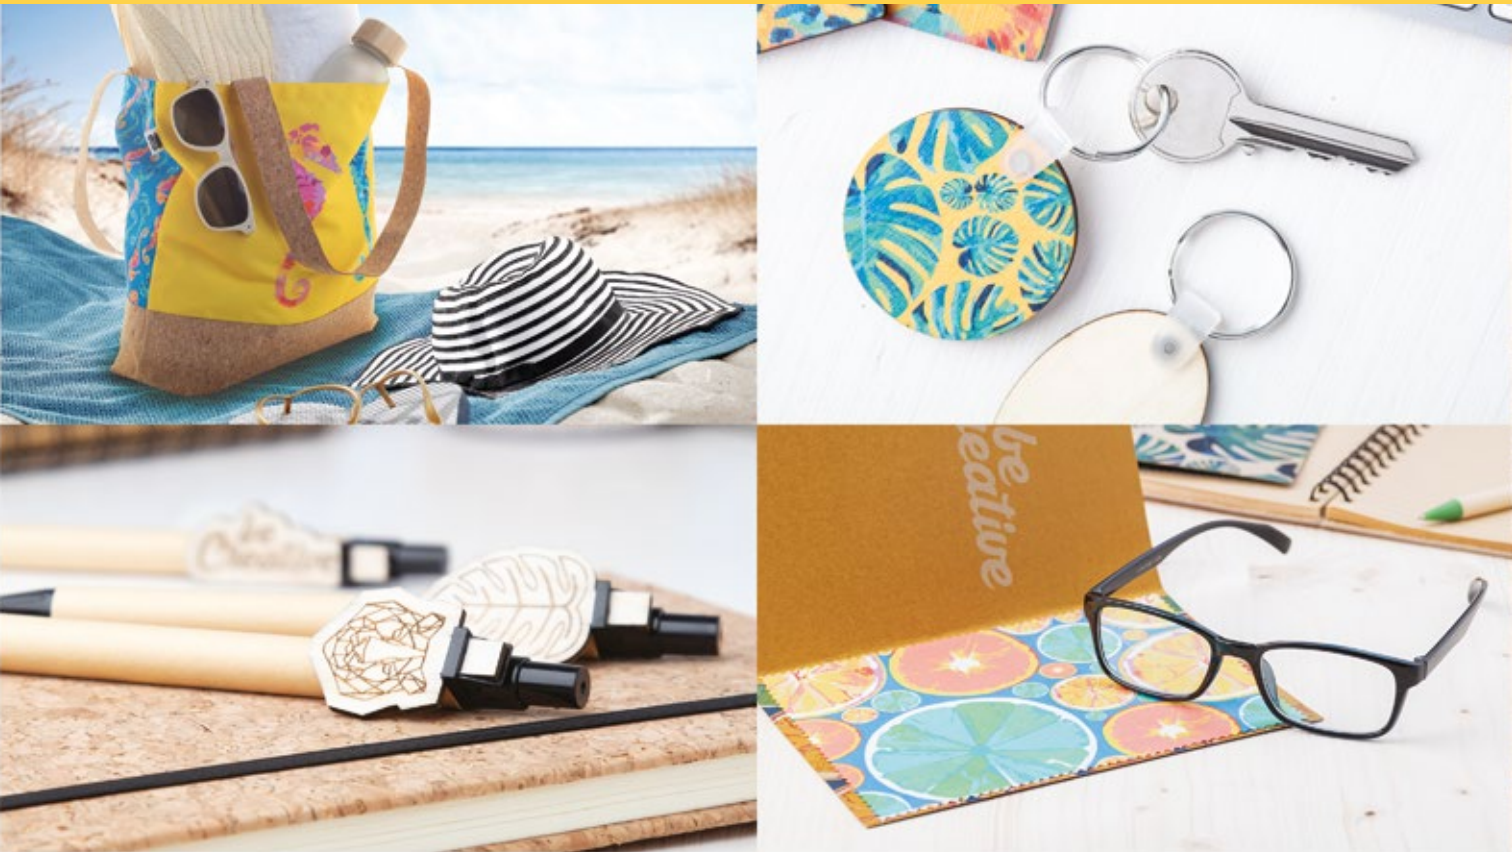

HOW TO READ THE BE CREATIVE CATALOGUE

We designed our BE CREATIVE product collection to provide as many customization options as possible. You can find similar products or product groups on each page of this catalogue, and we list the available creative options for all of them in detail.

- Choose the material, colour, size and shape
- Choose the printing technology
- Discover the packaging options
- Download the graphics template
- Create your own design

MADE IN EU

Made in EU products are manufactured in our in-house production facilities ensuring short lead-times. We design and create promotional gifts with special care. We choose the most optimal materials and forms, so you can reach your promotional goals at any budget with quality products. We make sure that our items made in Europe are not only grab the attention, but they are also practical and useful.

ASSEMBLED IN EU

In our European in-house facilities, we have an extensive stock of many different parts, ready to be assembled. Many of our products give you the opportunity to mix and match different colours, sizes, and materials of the product parts. Some of these promotional products even have pieces, that can be designed in custom shapes. After the printing we assemble these parts ourselves in Europe and prepare for shipment within a few days.

GO GREEN

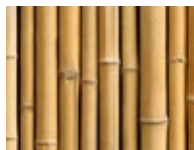

NATURAL, SUSTAINABLE AND ECO-FRIENDLY PROMOTIONAL GIFTS

The GO GREEN collection helps you achieve your promotional goals in a more sustainable way. Our products indicated with "GO GREEN" icon provide greener alternatives to traditional items. They are fully or partially made of natural, sustainable or recycled materials or provide a more durable substitute to a normally disposable everyday item.

Find a highlight of our GO GREEN materials used in our BE CREATIVE collection below.

Wood

Bamboo

RPET

Cork

Wheat straw
plastic

Kraft paper

CreaPack

Your printed promotional product makes a more memorable impression in a personalized packaging.

That's why besides delivering the perfect promotional gifts with personalised print, we also provide you a full service with matching custom gift boxes and paper sleeves. CreaBox and CreaSleeve as the members of the highly customisable BE CREATIVE Collection can be full-colour printed with your unique design to match your brand and message perfectly.

Part of our BE CREATIVE product collection

Made in EU

Available from 50 pcs

Ordering CreaBox or CreaSleeve packaging for your product always comes at additional price. Contact us for more information about production time and prices!

CREABOX

Accompany your printed promotional gift with a custom full-colour printed box. Our well-known CreaBox custom gift box programme gives an exclusive gifting experience and a professional look for any present.

We offer two types of digital printed boxes for selected items:

Corrugated cardboard boxes for bulky and fragile items.

Single layer cardboard boxes for smaller products.

CREASLEEVE

The new CreaSleeve custom paper sleeve programme lets you create your own full-colour paper ring for most of our products in our collection, offering a stylish yet economical packing alternative to our existing CreaBox custom gift boxes.

We offer two types of digital printed paper sleeves for selected items:

White paperboard for vivid colours.

Kraft paper for a natural look.

TAKE YOUR GIFT PACKAGING TO THE NEXT LEVEL

Create your own design for gift boxes and paper sleeves.

- 1. Choose your product!
- 2. Personalize it with your logo.
- 3. Design your custom CreaBox or CreaSleeve.
- 4. Have your product delivered in a custom packing.

Standalone CreaBox options

Besides our product-specific CreaPack options, we offer standalone CreaBox gift boxes for your general packaging needs. The boxes listed in the upcoming pages can be ordered independently, so you can turn your promotional products into a genuine gift and deliver them with style.

→ 1. Choose and personalize your product!

→ 2. Find a suitable standalone CreaBox gift box.

→ 3. Design the look of the gift box.

→ 4. Have your product and the gift box delivered.

OTHER INFORMATION

GO GREEN

Natural, sustainable and eco-friendly promotional gifts.

RPET

Products made of recycled PET material.

CREAPACK

Products available with custom full colour CreaPack packaging.

RFID

RFID blocking technology.

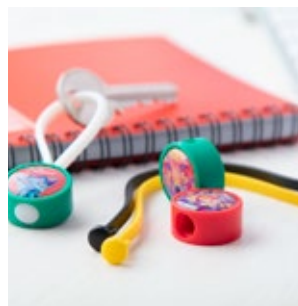

MOQ

Minimal order quantity of custom-made or special printing products.

MADE IN EU

Products made in Europe. (Raw materials and spare parts may be of non-European origin.)

ASSEMBLED IN EU

Products assembled in Europe.

Millilitre capacity.

Paper size.

Notebooks with blank or lined papers.

The length of a ruler or tape measure in centimetre.

FREE PRINTING

Price includes printing with indicated technology. Excluding setup charge.

BE CREATIVE graphics on the products of this catalogue are only exhibited for the purpose of displaying printing possibilities and are not reference for sale. Accordingly, products are merchandised blank or imprinted with the customer's graphics.

The right is reserved to deliver products that differ, in execution and in colours, from items illustrated in this catalogue. The displayed product printing parameters may differ from actual possibilities.

Products are delivered without decoration and battery, unless otherwise indicated.

Prices displayed in this catalogue are not including VAT.

PRINTING INFORMATION

P PAD PRINTING

Pad printing is the most popular, traditional ink-based labelling method. This technology uses a silicone pad to transfer ink onto an item with fine details and high accuracy, applicable to a wide range of materials. Pad printing allows labelling curved surfaces.

S SCREEN PRINTING

Screen printing is a traditional ink-based labelling process, for flat or flattenable products, with high durability and colour accuracy. During the screen printing process ink is directly pressed on the product's surface through a gauze, then fixed with heat treatment.

T TRANSFER PRINTING

Transfer printing is based on traditional screen printing, however, instead of being directly screen printed onto an item, the design is printed onto transfer paper, then applied with a heat press. Transfer printing is applicable to a wide range of products and holds several advantages over screen printing.

DT DIGITAL PRINTING

Digital printing is used to imprint paper products and paper inserts in photo quality. Paper inserts can be produced in various sizes and shapes.

SU SUBLIMATION PRINTING

Sublimation printing is a full-colour, digital labelling technique with photo quality. Designs are printed with special ink on a transfer paper, then heat-pressed onto the product's surface. Sublimation is only applicable to light coloured polyester and sublimation coated products.

UV UV LED PRINTING

UV LED printing is a full-colour, digital labelling process utilising UV-cured inks. Logos are directly printed on the product's surface in high-resolution, resulting in instant photo quality imprints.

E ENGRAVING

Engraving utilises lasers to mark a product's surface. The surface of the product practically burns in the process to develop the logo. Even small logos can be printed very accurately. Engraving is applicable to metal, wooden, glass and certain plastic products.

DO EPOXY DOMING

Epoxy doming is a unique printing technology, using full-colour printed stickers covered with 2 component resin. As a result, the treated sticker will have a 3-dimensional look. Epoxy domed logos can be produced in custom shapes and are resistant to UV rays.

DG DIGITAL TRANSFER

Digital transfer printing is a modern, full-colour alternative to traditional transfer printing. The design is printed in photo quality onto transfer paper with a special digital printer, then applied to the product with a heat press. Our digital transfer technology carries no limitation in size or shape of imprints.

VF VISION FILM PRINTING

Vision Film printing is a special printing technique for labelling sunglasses lenses. During the labelling process, a digitally printed and perforated film is applied enabling a high degree of customisation.

VS VINYL STICKER

Vinyl stickers are digitally printed full-colour, self-adhesive stickers applicable to various, otherwise hard to print, products. Vinyl sticker logos can be produced in various sizes and shapes.

RE RAINBOW ENGRAVING

Rainbow engraving is a special laser engraving technology, utilising different wavelength laser beams to achieve coloured imprints on metal items, without the use of inks or chemicals.
