*Did you know...*

Coloring requires the cooperation of both hemispheres of our brain, which has a positive effect on improving mindfulness, focus and memory. That is not all! Coloring stimulates alpha brain waves, thanks to which our body enters a state of relaxation, comparable to meditation. Coloring books, also for adults, are great against stress or blues.

The set includes crayons in 12 colors, 12 coloring pages.

19691

Did you know...

The wide threads of the thermal mugs and bottles, make it possible to store liquids other than hot or warm drinks. Thermal bottles and mugs are also great reusable containers for soups and other liquid dishes. They maintain their temperature so that the dish can be consumed as a takeaway, without the need to reheat the food.

glass, plastic

Pad printing N3, UV printing U2

Did you know...

Borosilicate glass is more resistant to impact and breakage than traditional glass and does not react with most chemicals, making it an ideal material for food storage containers. Borosilicate glass is also more transparent than traditional glass, which translates into better visibility of the container's contents. A key advantage is that borosilicate glass is more resistant to temperature changes than traditional glass, meaning that the containers will not crack when exposed to heat.

Alva & Sola

Natural bamboo cap.
Borosilicate glass.
