Planet

Sustainable solutions

Committed to reducing environmental impact by enhancing raw materials, optimizing packaging, and partnering with suppliers to minimize their footprint. Our state-of-the-art print facility recycles inks for cleaner production, while impact data empowers all to make transparent and sustainable choices.

People

Social responsibility

The More than Gifts collection is built on well-being, inclusion, health, and safety. Through risk assessments, community initiatives, and active stakeholder dialogue, we foster social responsibility — creating positive, lasting impact for everyone involved.

Promoter

Championing traceability

Sustainability guides every step of our journey, from sourcing and production to logistics. We hold ourselves accountable across the entire supply chain and continually push boundaries to stay ahead of legislation, inspire progress, and lead meaningful change.

Change

Creating awareness

By sharing knowledge and creating communication that sparks action, we are leading the movement towards a more sustainable industry. Our partnerships and educational initiatives empower collaboration, inspire innovation, and motivate lasting change for a better future.

More than Gifts

Fast delivery. We take the ever increasing demand for the speed of delivery as seriously as we take the selection of a highly diverse product assortment. With unbeatable stock availability.

yourChoice. We take personalisation to the next level by creating unique products with our yourChoice made to order program. Complementing the large proposition available from our wide and varied stock collection. Available in small quantities and short lead times.

Textile Collection

Since 1991, SOL'S has been shaping a vision of textiles where every garment becomes a medium of expression. Behind every brand, event, or commitment, there is a message to be conveyed. From iconic basics to bolder pieces, SOL'S helps brands express their identity and values through a durable collection, designed to meet every need.

Today, the range is organised into five clear segments, tailored to market expectations, to be discovered in the following pages.

BASIC

**Built for impact.
Priced for success.**

Unbeatable – value basics, designed for large-scale operations, events and promotional campaigns. A simple and accessible range, ideal for spreading a message to as many people as possible without compromising on the budget.

ESSENTIAL

**Core. Timeless.
For all.**

The heart of the SOL'S range: essential models, designed to last and adapt to every setting. Available in a wide variety of sizes and colour, these references meet the needs of all brands across all markets. Essentials created to transcend seasons, styles and identities.

EDITION

**Modern pieces.
Built to elevate.**

A collection designed with care, where every fabric, every finish and every line has been crafted to affirm a style. SOL'S EDITION offers contemporary garments, distinguished by meticulous attention to cuts, textures and details. A demanding line, created for brands seeking a more refined silhouette and a strong visual impact.

PTSF

**Make a statement
with streetwear.**

A collection inspired by urban culture, vintage archives and the aesthetics of independent creators. Strong silhouettes, distinctive textures, iconic details: PTSF offers standout pieces, design to make an impact. Directed by Pablo Attal's artistic vision, line speaks to creative brands, emerging labels and cultural worlds that use textiles as a means of expression.

ACTIVE

**Engineered for a movement.
Built for performance.**

A range designed to support movement in every situation. With technical fabrics, functional cuts and optimal comfort, SOL'S ACTIVE meets the needs of teams, events and sport activities. Garments created for action, visibility and efficiency in the field.

Printing Techniques

Having your logo printed with the widest range of printing techniques has never been so easy. These are the main techniques used to print your logo.

Digital printing 360

Compared to round screen, it's possible to print full colour images. UV ink technology does not emit volatile organic compounds to the atmosphere. When combined with white underprint - possibilities are limitless on transparent objects.

Laser engraving 360

Next level for inkless decoration, now possible on cylindrical products. Compared to conventional engraving, area is limited by circumference of cylindrical object. Can be used on mugs with handles. Best results on natural materials.

Sublimation

Printed with special inks on transfer paper, transferred to material using high temperatures. Photographic quality of printed images, vivid colours and accuracy of small details. Requires white background and polyester material/coating.

Doming

Digitally printed full colour label on self-adhesive polymer foil, covered by a thick layer of transparent epoxy resin, which both protects the image, as well as giving a premium, glossy look and finish.

Digital Label

A flexible way to brand various products in almost any shape, self-adhesive polymer foil will fit in positions not accessible by other print techniques.

Digital Printing

UV flat bed inkjet technology allows you to print vivid full colour images on various materials - artificial and natural. Compared to Digital printing 360 - technique requires flat, rigid products. White underprint possible.

Digital inlay

Xerographic full colour print on paper is a perfect way to convey message to Your customer. This technique is best for text and images, can be used: as a manual or "Thank You" notes or items where this is the only option available.

Button printing

Best way to stand out from the crowd with this full colour button. Printed using xerographic technology on paper, assembled with glossy finish to give premium look.

Digital Transfer

Digitally printed image on carrier foil with heat activated glue, applied in high temperature and pressure. Features full colour photographic quality and sharp details. Gives a premium look and feel, especially on textile materials.

Screen transfer

Conventional way of indirect printing using screen print. Can be applied on materials and places, where direct screen printing is not possible, in addition up to 8 different colours can be used on one image. Special colours available.

Ceramic transfer

Technique of printing image using special inks on paper, transferred to the item using water film and heated in extreme temperatures to assure durability. Special colours available. Recommended for ceramic materials.

Screen printing

Image exposed on a screen mesh, through which ink is squeezed to the marked surface. Main advantage is large printing area on flat surfaces, almost any material, with possibility to use special colours. First choice for textiles.

Pad printing

Image transferred to surface from engraved cliché by silicone tampon. Most versatile marking technique on almost any rigid shape and material. Maximum of 4 colours. Special colours available. Cost efficient technique on small items.

Round screen printing

Evolution of screen printing allowing print on to cylindrical and conical products. Compared to pad printing, technique allows for a bigger printing area. Can be used on mugs with handles. Maximum of 1 colour. Special colours available.

Debossing

The engraved metal stamp is heated and is pressed against the material creating a permanent depression in the shape of the customer's artwork. Best results can be achieved on leather, PU, cardboard materials, like notebooks, organizers.

Embroidery

Computerized stitching allows complex artworks being sewn in the material, creating premium and permanent marking. Maximum of 8 colours in one image. Possible on textile materials like bags, t-shirts, jackets, etc, as well as caps.

Laser engraving

Marking is permanent, by selectively removing microscopic layers of material, thus creating visible marks on the surface. Colour varies depending on processed material. Best results on natural materials (metals, wood, bamboo, etc.).
